

Reviews & Testimonials of Maggie's Soap Nuts

Mothering Magazine -May 07;

"We all thought we knew how to do laundry, until now. Place two nuts (dried fruit of the Chinese Soap Berry Tree) in a small cloth bag, cinch shut, and toss in the machine. No powders or goopy liquids? No toxic chemicals? That's right. Not only did it clean my clothes, it softened them too."

Domino Magazine -Oct.07;

'...my clothes were spotless and fresh! All I can say is, bye-bye Tide! "

Natural Home Magazine -Oct.07;

"Maggie's Soap Nuts soften and freshen clothes naturally."

Real Simple Magazine -Aug.07;

"Money doesn't grow on trees, but sometimes soap does. Maggie's Soap Nuts, the dried fruit of the chinese Soap Berry tree (really) cleans laundry naturally."

Making Scents Magazine -Fall 07;

"Viable alternative to commercial laundry detergents."

Natural Awakenings Magazine -Aug.07;

"...biologically compatible, more sustainable toxin-free alternative...Not only kind to humans, animals, fish and birds, they also encourage recovery of the planet...they leave clothes clean, unscented and soft."

American Massage Association Journal -Fall 07;

"Maggie's Soap Nuts really are amazing! I washed some sheets and some athletic socks with them and they got the stains out of the socks that regular detergent never could. They left the sheets soft and fresh! "

Common Ground Magazine -April,07;

"...a renewable, biodegradable and hypoallergenic alternative to chemical-ridden detergents... that goes beyond the 'earth-friendly' Ones in the supermarkets."

Natural Home Magazine -Jan.08;

Emperors New Suds,

" We've been convinced we need Lemon-Freshened, Static-Removing Spot be gone. Do we? Many conventional laundry products are not biodegradable and, being made from nonrenewable petroleum products and harsh chemicals, negatively affect local waterways. Unfortunately, these super soaps don't really work any better than simpler, more natural products.

To clean up your laundry act, buy only one detergent - you can use it directly on stains. Avoid conventional detergents with health warnings such as, "may cause skin irritation" or "harmful vapors." Look inside for a product that is biodegradable and plant based, not made from petroleum, and produced by a company with strong environmental ethics. A powdered or concentrated detergent is a bonus; it contains less water. And if you must have fragrance, be certain it's derived from natural essential oils.

Skip the dryer sheets, chlorine bleaches and chemical spot treatments. You can find eco-friendly substitutes in your pantry. Add baking soda to wash water as a softener/ freshener, hydrogen peroxide as a spot remover or bleaching agent, and borax as a detergent booster. Sample them on a swatch before using them on fine fabrics.

Finally, reduce packaging by buying the largest container of detergent you can, preferably one that's refillable - and be sure to recycle it.

All -natural Maggie's Soap Nuts use the dried fruit of the Chinese Soap Berry Tree to effectively cleanse clothes."

Well Being Journal -Nov.07;

"...I must say that as a shampoo the soap lives up to it's name of giving body and luster to the hair. In fact, so much for me that I needed a bit of coconut oil to smooth my hair into submission! "

Gimundo -Dec.07;

"...a great eco-friendly alternative to chemical detergent..."

San Francisco Chronicle -June 6th,07;

"Clean and as effective as commercial detergent!"

Sacramento Bee -March 24th,07;

"If you want to do laundry like a mother-earth domestic goddess, or god, then check out Maggie's Soapnuts!"

The Indianapolis Star -March 22nd,07;

"...everything came out clean and soft with no chemically odor!"

Pittsburgh Post -March 24th,07;

"Even my kid's muddy whites came out of the wash looking clean and smelling fresh!"

Houston Chronicle -April 26th,07;

"...these berries are something else!"

St.Louis Post -April 20th,07;

"If you're looking for an all natural alternative to harsh chemical detergent, try Maggie's Soapnuts."
